BPC-157

Available in 60 Count Vegetarian Capsules

BPC-157 is a precision-formulated peptide designed to support healthy tissue repair, gastrointestinal integrity, circulatory function, and balanced inflammatory response.*

This innovative formula features BPC-157 (500 mcg), combined with Sodium Bicarbonate and L-Lysine HCl to provide a comprehensive foundation for stability and targeted nutritional support.

BPC-157 is ideal for individuals seeking advanced support for recovery, resilience, and whole-body restoration, especially in protocols focused on musculoskeletal health, digestive wellness, and healthy vascular response.*

Key Features / Benefits

- Supports healthy tissue repair and recovery*
- Promotes gastrointestinal lining integrity and digestive resilience*
- Helps maintain healthy circulation and vascular response*
- Supports a balanced inflammatory response following physical stress*
- Designed for targeted peptide-based wellness support*

BPC-157 is a synthetic peptide fragment studied for its ability to support the body's natural repair processes.* It is believed to help promote healthy cellular signaling involved in tissue recovery, vascular support, and gut barrier integrity.* BPC-157 may also help support angiogenic activity, which is important for healthy blood flow and nutrient delivery to tissues during recovery.*

In the gastrointestinal tract, BPC-157 is commonly recognized for its potential to support mucosal health and maintain the integrity of the gut lining under physical or nutritional stress.* Its role in promoting balanced inflammatory activity also makes it a valuable option for individuals looking to support joint, soft tissue, and digestive comfort as part of a comprehensive wellness protocol.*

Sodium Bicarbonate is included to help support pH balance and formula stability, while **L-Lysine HCl** provides complementary amino acid support for tissue structure and repair.* Together, these ingredients create a focused formula for recovery, resilience, and foundational wellness support.*

Serving Size: 1 Capsule | Servings Per Container: 60

BPC-157	500 mcg
Sodium Bicarbonate	3 mg
L-Lysine HCL	1.5 mg

Other Ingredients: Sunfiber® (Partially Hydrolyzed Guar Gum), Magnesium Stearate (from vegetables), Hypromellose and Water (vegetarian capsule)
